

PROFESSIONAL EXPERIENCE

Freddie Mac | Digital Product Design Professional | Oct 2025 – Present

UX designer for Optigo, Freddie Mac's in-house, end-to-end platform for multifamily loan lifecycle needs

- Embedded designer for 2 agile product teams and a cross-functional AI “tiger team,” owning wireframes, prototypes, and dev handoff, partnering with engineers story by story through build
- Facilitated design team's adoption of AI-coded prototypes as core design deliverable, cutting revision rounds from product, streamlining design-dev handoff, and shortening time to delivery
- Design AI-powered workflows for internal financial professionals in a highly regulated environment, balancing automation with transparency, compliance, and user trust
- Led a UX research deep dive on a complex financial forecasting tool, uncovering the pain points and inefficiencies blocking user adoption
- Own the user persona layer of the team's AI context library, building structured, markdown-based personas that ground AI tools in real user needs

Wells Fargo | Product Designer | Dec 2022 – Oct 2025

Sole UX designer on an internal-facing platform modernization effort

- Partnered with new AI-focused development team, shaping product strategy/MVP and user experience for standalone AI-powered employee tools
- Designed and iterated wireframes and prototypes in Figma, using product, business, and engineering stakeholder feedback to balance business goals with user needs
- Raised WCAG compliance from roughly 70% to 96% by leading the ADA testing strategy with internal accessibility experts

FutureSight | UX Design Associate | May 2022 – Nov 2022

Boutique UX design agency providing design and research support to 3 client accounts

- Designed a streamlined customer return flow, creating a “TurboTax-like” experience to simplify and fully digitize a complex, fragmented business process
- Revamped web and mobile designs for a B2B training platform, leveraging usability testing insights to enhance search and course information pages
- Redesigned key touchpoints for an auto retailer, including the About page, sales funnel landing page, and e-commerce checkout flow

EDUCATION

Springboard | UX/UI Design Career Track | Sep 2021 – Aug 2022

The George Washington University | BA Sociology with Honors | Aug 2015 – May 2019

Certifications: UX Design for Agentic AI (Maven, 2026); UX Design for AI Applications (Maven, 2025); Google Cloud Digital Leader (Google, 2024)

SKILLS + CERTIFICATIONS

Design & Research: Wireframing, prototyping, usability testing, qualitative research synthesis, affinity mapping, persona development, accessibility (WCAG), design systems (Figma and code)

AI & Prototyping: AI-coded prototyping, agentic development in Angular, designing AI-powered workflows, authoring AI agent skills and context files, Figma-to-code workflows (API-based)

Tools: Figma, Figma Make, Kiro, Amazon Q, VS Code, command line interface (CLI), local dev environment setup

Awards: Grace Hopper Celebration (GHC) 2022 Scholarship Recipient for Women in Tech Bootcamps
